Mr. Morgan's, of Louisiana, bill instructing the committee on the coinage to inquire into the advantages of industries, coastwise and otherwise of foreign commerce that would be effected by the Nicaragua canal, was taken up. Mr. Morgan said that logically the government of Great Britain had just as much right as the United States to charter the canal company and to take hold of it as the government of the United States. notice the objections made \$12,000,000 shares would not have any undue influence in the management of the corporation; speaking of the provision for ten directors out of fifgovernment had had its own directors the Panama canal scheme, the robberies would have not only disgraced, but destroyed the French government.
At the conclusion of Mr. Morgan's speech, the anti-option bill came up as special measure on motion of Mr. Washburne, and he demanded a yea and new vote. Result: Yeas, 9; nays, 39.

It is hereby publicly made known that Dr. McGlynn, beside professing his adherence to all the doctrines and teachings of the Catholic church, has expressed his regret, saying that he would be the first to regret if any word or action of his might seem lacking, retracting as far as he can any offenses which he might have given to the Catholic church. THE STATE VS. JUSTICE SHOPS

Alderman Anderson of Grand Rapids Gives Notice of a Bill Which Interests That City.

Lansing, Mich., Jan. 14.-When the legislature adjourned yesterday afternoon until 10 o'clock this morning it was the general belief that not a quorum would be on hand at roll call today. Considerable surprise was manifested in consequence when on the fall of the gavel it was found that a large majority of the members were in their seats. Speaker Tateum made a few remarks in which he thanked and congratulated those present on their allegiance to the short session cause and the roll was called showing over three-fourths of the members

Sullivan of Chippewa arose immediately after the reading of the delinquent list and moved that all absentees be excused for the day. Mr. Tateum took occasion to address the house before the motion was put, and said be hoped the motion would not prevail. He thought it a bad precedent to es-tablish, and the absent ones, unless tablish, and the absent ones, unless they had good excuses, had no more right to be at home enjoying themselves than the large majority who had remained to do business for the state. The announcement was received with applause, and Mr. Sullivan's motion was lost by long additionally and the state. appliause, and Mr. Sullivan's motion was lost by long oids. Several members then took the floor in turn to plead for absent colleagues. Bishop of Mason was excused for cause, and Crippen, Mills, Starling and Moore were all excused on account of sixness in their families. Wagner was excused because there was a local election in his town and Busch was cused because there was a local elec-tion in his town and Busch was let off on account of the elec-tion contest for his seat, which is under investigation in Detroit. About fifteen minutes was consumed in listening to excuses and the house then got down to business.

Alderman Auderson's Bill, Senator Doran's bill to regulate the duties and salaries of Kent county officials, which passed the senate yes-terday, was placed on its second read-ing and referred to the judiciary com-mittee. Representative Anderson has assurance that the bill will be referred to the house next Tuesday, and it will undoubtedly become a law at that time. Anderson of Grand Rapids gave notice of a bill to prescribe the manner of holding justice courts in that city. Mr. Anderson says he has not as yet got his bill into shape, but will have it drafted at once and intends to present it to the Grand Rapids public, so that all interested parties may examine and offer suggestions on it before it is introduced to the house.

journed, after a forty minute session, till 9 o'clock Monday evening. Allen's Hard Luck. Yesterday afternoon Representative Barkworth of Jackson called the attention of the house to a petition which he wanted to present. Under the new rule the petition was ordered printed in the house journal without previous reading. The story contained in the journal this morning is an interesting and unusual one. It appears that August 20, 1890, a man named Thomas Allen, a resident of Detroit, was arrested in Grand Rapids on a charge of assault with intent to murder. The mitted in Big Rapids two years prior to the date of the arrest. Three months later Allen was tried before Judge Palmer in Mecosta county, convicted and sentenced to five years imprisonment at hard labor in Jackson. In his testimony during the trial he persistently maintained his innocence and claimed that at the time alleged he was a resident of Califorms. He was too poor to send for witnesses, however, and circumstances were strongly against him. Allen pre pardons asking for an investigation with the result that one and a half years later he was released on a pardon signed by the governor, the board having thoroughly satisfied itself and established beyond a doubt that on the date of the assault Allen actually shipped on board a Pacific steamer in California. The unfortunate man was out of prison again December 21, 1892. very day the present legislature went into session, January 4, he slipped on a stone sidewalk in Detroit and injured his leg so badly that amputation was found necessary. His right leg was taken off below the knee. He now asks the legislature to make reparation for the great wrong done him.

Dynamite, which is extensioned in mining operations, is easily a curable by the discharged men in this explosive seems to be the favor weapon of the malcontents in weapon.

reapon of the materials in aring vengeance upon the mine own Today a terrific explosion occur in the consolidation colliery at Gen kirchen, and after the excitement subsided it was found that it had been caused by dynamite cartridges that bad been secreted in the mine presumably by strikers, and so arranged that they would explode at a certain time.

Though many men were at work at the time, it so happened that none of them were in the vicinity of the explosion, and therefore nobody was killed. A number of miners were, however, thrown violently down by the

concussion.

The damage done to the mine was great. Immense timbers and hure masses of rock were blown out of place and some of the galleries were completely blocked. It will require considerable time to get the mine in good working order again. Great indiguation is expressed that the author of the outrage should have risked the lives of hundreds of men for the sake of revenging themselves against the mine owners. It will go hard with them if they are discovered. Every day sees a decrease among the men who went on strike. All hope of success has been abandoned, and it is expected that in a short time all the men whom it is intended shall be re-employed will be at work.
